DIMENSIONS

Height - 14", Inside Diameter - 32"
Outside Diameter - 46"

INSERT

Metal

AVAILABLE ROUND FIREPIT COLORS

FIREPIT INSTALLATION

(APPLICABLE TO BOTH ROUND AND SQUARE FIREPITS)

Step 1

Choose a location that is level and away from your house and low hanging trees or branches. Place the base ring down for a template. Mark a circle 2" from the outside diameter. Remove the base ring when clearly marked.

Step 2

Dig out the circle and level out the soil approximately 3-4" deep. Remove the sod and dirt to a depth of 3-4".

Step 3

Compact the soil using a hand tamper. Tamp down substrate (soil) keeping it level. Check the area with a level. Adding and removing soil as needed, tamp again.

Step 4

Place clean small gravel (#9 or #89 gravel/stone) 2.5-3" deep.

Step 5

Tamp down gravel/stone keeping it level.

Step 6

Place first course and use rubber/plastic mallet to establish a level bottom course.

Step 7

Continue to install the interlocking pieces 3 layers high. No adhesive needed.

Step 8

Fill the outer perimeter with the small gravel. Complete with putting on the four piece caps. Adhesive is optional.

PROTECT YOUR INVESTMENT WITH EXCELLENT PRODUCTS

TriCircle Pavers carries a range of premium quality polymeric sands, cleaners and sealers.

SKIMMER LIDS & DECK DRAINS

TriCircle Pavers offers a variety of products for your outdoor deck.
